

Batch Renaming Photos in Photoshop

Renaming photo file names will help in finding and identifying an event.

1. File > Browse in Bridge (may just be listed as Browse)
2. Find the folder holding the photos to rename.
3. Select Photos to be renamed.
4. Tools > Batch Rename...
5. Give a name, Sequence Number and how many digits needed and click Rename
6. Photos now have a new name.
